ARBITRON TELEVISION

INTRODUCTION

THE ADI BOOK (Area of Dominant Influence) defines all the 1980-81 Arbitron ADI markets. Included in this book are lists of the counties comprising each of the 214 ADI's and the corresponding basic statistics in those counties.

THE ADI

The ADI or Area of Dominant Influence is a geographic design which defines each television market, exclusive of another, based on measurable viewing patterns. It is an area that consists of Arbitron sampling units in which the home-market stations receive a preponderance of viewing. A sampling unit is normaly one county or an independent city, although some counties or cities have been divided into two or more sampling units because of terrain or areas in which special interviewing techniques are used. (There are no instances in which an Arbitron Television sampling unit consists of more than one county.) For purposes of this publication, sampling units will be referred to as counties. Each County in the U.S. (excluding Hawaii and portions of Alaska not included in the Anchorage ADI) is allocated exclusively to one ADI. There is no overlap.

The original ADI allocations were based on a 1965 county-by-county study of television circulation using the viewing data obtained by diary from approximately 250,000 television households. From these viewing records, Arbitron prepared estimates of total viewing hours in each county for an average week and the percentage of the estimated total viewing hours of each station for which viewing was reported.

Arbitron now updates the estimates annually, the most recent of which were computed from viewing records of 310,401 television households from the May 1979, November 1979, and February 1980 nationwide surveys. Based on these estimates, Arbitron has made its ADI allocations for the 1980-81 survey year.

Once the estimated total viewing hours for a county and the percentage of such estimated total viewing hours for each station are determined, Arbitron sums the percentages by the station's market of origin. The county under consideration is allocated, for ADI purposes, to the market of origin having the largest total percentage of viewing hours (deemed to be the "dominant influence").

Counties in which the current ADI market receives a lower percentage than a competing market are considered eligible for reassignment.

General rules for reassignment:

1. In those cases where a competing market obtains the highest share but does not obtain a 1.5 share point advantage over the current market or any other market, an additional analysis is performed. The viewing hours in both Early and Late Fringe dayparts are summed for each market and then divided by the total county viewing hours (for all markets) in the Early and Late Fringe dayparts to determine a new share of Early and Late Fringe viewing hours. The market obtaining the highest share in this additional analysis is then deemed to be the dominant influence.

2. To reassign a county from one ADI market to another a minimum of 20 in-tab households is required. In those cases where this minimum is not met with the three survey periods being considered, a multiple year estimate based on a minimum of 20 in-tab households is developed. This estimate is an average of the percentage of total viewing hours for the current year and prior one or two years (as needed to meet the 20 in-tab requirement).

There are exceptions to the general rules:

1. If the market of a county's home station averages at least a 20 share, a Home County is not assigned to the ADI of another market unless the average of the percentages of viewing hours of the stations in the other market is at least 10% greater than the sum of the percentages of viewing hours of the stations in the Home County under consideration.

2. In considering the creation of a new ADI market, the criteria for the assignment of counties to an ADI would prevail; in addition, a market must win its Home County, and that Home County must have at least 10,000 television households. In the case of a new ADI which could be created through the application of the 10% rule, described above in number 1, the home station may waive the application of that rule.

3. Arbitron reserves the right to exercise its judgment in the case of counties with unusual physical features or peculiar marketing considerations.

The above stated rules for ADI allocations receive extensive reexamination periodically. As a result, Arbitron reserves the right to change this and other policies whenever these procedures would result in a county addition or deletion, which would appear totally unreasonable or illogical in light of known topographic, geographic or other exceptional conditions.

DESCRIPTION OF ESTIMATES REPORTED

A television household is an occupied dwelling unit having one or more television sets. Updated estimates of the number of television households in each surveyed county in the United States are prepared annually by Arbitron's Research Department for use in projecting estimates of audience size in Arbitron's Television publications. The estimated television households are additive and the total of all ADI's represents the total number of television households in the United States as surveyed by Arbitron.

The updating procedure is as follows:

1. Total households are furnished by Market Statistics, Inc. (MSI) which has projected county-by-county estimates to January 1, 1981. These estimates include households on military installations. MSI's total households are based on the 1970 U.S. Census.

2. TV penetration figures for nine Census Divisions are reported periodically by the Advertising Research Foundation (ARF). The most recent ARF penetration estimates, based on surveys conducted by the U.S. Census in accordance with ARF specifications, are as of January 1969.

3. The six most current ARF TV penetration estimates, the July 1971 U.S. Census Current Population Survey, the 1972-73 Bureau of Statistics' "Consumer Expenditure Survey", the Fall 1973 Census Survey of Purchases and Ownership, and the Fall 1974 Census Survey of Purchases and Ownership have been employed by Arbitron to project TV household penetration estimates to January 1, 1981. These are then applied to the estimates of total households provided by MSI, taking into account geographical growth patterns, and employing the concept of diminishing non-television households.

4. County-by-county television penetration estimates are developed from unrounded TV households. However, all households estimates appearing in this report are rounded to the nearest hundred households; because of this, the reported penetration may not always equal the quotient obtained when dividing the reported television households by total households.

It should be noted that the estimates in this report are subject to defects and limitations such as sampling, processing, and recording errors. Such limitations apply not only to Arbitron procedures, but also to U.S. Census, ARF, and MSI procedures upon which the estimates are based. Further details are available upon request.

Arbitron clients who also receive survey data estimates on EDP tape should note that the estimates on the tape are in somewhat different form than reported in this book.

SECTIONS OF THE REPORT

ADI MARKET RANKINGS / This section lists the 214 ADI markets defined by Arbitron for the 1980-81 survey year. Markets are ranked in descending order according to their ADI television household (TVHH) size. Estimates reported for each market are: ADI Total Households, ADI TVHH, ADI Market % Saturation and the market's size relative to the U.S. (% of U.S.). The U.S. Total is also provided for the ADI Total Households, ADI TVHH and ADI Market % Saturation.

ADI MARKET ALPHABETIC LISTINGS / All markets reported in the first section are listed alphabetically. The statistical information appearing in the first section also appears here.

COUNTIES IN ADI MARKETS / This section contains a list of the counties included in each 1980-81 Arbitron-defined ADI market. The state location of each county is identified. Listing is in alphabetical sequence by ADI market, by state, and by county. Each county is categorized into one of the following population size groups:

Group A
All counties located within the twenty-five largest Metros.

Group B
All counties not included under A with a population over 150,000 or located within a Metro with a population over 150,000.

Group C
All counties not included under A or B with a population over 35,000 or located within a Metro with a population over 35,000.

Group D
All counties not included under A, B, or C.

Information reported includes ADI market rank, ADI TVHH for each county, county size group, and market totals.

LISTING EXAMPLE

Market Name
Market Rank % of U.S. Total

County Size	County	State	TVHH Estimates
ADI Totals		No. of Counties	TVHH

One new ADI market has been established for the 1980-81 Survey Year:

Bend

Charlottesville-Harrisonburg (former ADI in 1979-1980) has been separated into two distinct ADI's:

Charlottesville
Harrisonburg

One market name has been changed for the 1980-1981 Survey Year:

From Providence to Providence-New Bedford

The following supplementary markets have no ADI. Reports for these non-ADI markets may be produced in the November, February, and/or May surveys. Because the survey areas of these markets are composed of counties which are a part of other markets' ADI's, these estimates are non-additive.

Non-ADI Market	Home County
Akron	Summit, OH
Allentown	Lehigh, PA
Bellingham	Whatcom, WA
Canton	Stark, OH
Ft. Lauderdale	Broward, FL
Ft. Pierce-Vero Beach	St. Lucie, FL
Hagerstown	Washington, MD
Hanford	Kings, CA
Hanover	Grafton, NH
Hazard	Perry, KY
Hickory	Catawba, NC
Manchester	Hillsborough, NH
Modesto	Stanislaus, CA
Sarasota	Sarasota, FL
Visalia	Tulare, CA
Wildwood	Cape May, NJ
Worcester	Worcester, MA
